Q1_INTRO

Thank you for visiting PAMCo, the National Readership Survey.

This survey asks about the newspapers and magazines you read and how you read them.

On average this survey takes around 25 minutes, but everyone's experience is different.

The information you provide is used by publishers to help improve their publications and online sites and to tailor them better to their readers.

Please enter the password from your invitation letter or your postcard to start the survey.

[in Bold]

[Entry box for PIN part 1] - [Entry box for PIN part 2]

[Info button next to PIN entry box. Pop-up information given:

You can find your password on your invitation letter. The password consists of two sets of 4 alphanumerical characters.

Please take care when entering the password as it is case sensitive. If you have any problem please contact us by email at PAMCohelp@ipsos.com.

[ERROR MESSAGES if survey completed already: 'This password has already been used']

[ERROR MESSAGES if invalid IDs: 'This password used is not valid please type your password again']

Q1A_INTRO

Please be assured that this information will be treated completely confidentially, used for research purposes only and the data will be totally anonymised at the analysis stage.

By clicking on the Next button below you agree to Ipsos processing your data for research purposes in line with our Privacy Policy (hyperlink) and to the use of cookies on this site.

The 'back' button at the bottom of your screen will allow you to go back one screen to review your answers to the previous question.

Q23_intro

You have now finished the first section of the survey.

For many people this is the longest part.

Coming up, there are four shorter sections in which we'd like you to tell us a bit more about you and your household.

Your answers will help the publishers of newspapers and magazines to better understand both their readers and non-readers.

The sections are:

- You and your household
- Shopping
- Devices in your household
- General lifestyle

Q40A_Chief_Income_Earner_Intro

In Great Britain, a standard way of classifying households is according to the working status of the person in a household who has the **largest income**, whether from

- Employment
- Pensions
- State benefits
- Investments or other sources

so the next few questions are about the working status of the **main income earner in your household**.

Q40A_Chief_Income_Earner

Who in your household would you say is the MAIN INCOME EARNER, that is the person with the largest income?

[Scripter: insert a pop up message available by clicking on the word 'here' at the end of the following sentence]

Q90E_iris_Recontact

Ipsos iris is a continuous research panel that is the official source of online measurement in the UK.

Panel members are asked to load an Ipsos iris application onto smartphones, tablets and computers which measures time spent on websites visited. This is done passively and does not affect how devices are used.

Panel members earn £20 worth of reward points for joining and £5-£10 worth of points each month they remain on the panel. Points can be redeemed for goods, vouchers or donated to charity.

Participation is voluntary and you can opt out at any time. Would you be interested in joining the Ipsos iris panel?

If you agree to be contacted for the Ipsos iris panel, we will use the contact details that you have already provided us with.

About Ipsos Connect

Ipsos Connect plays a prominent role within media and communications research, holding key industry audience measurement contracts and conducting bespoke research to assist our clients in informing their strategic decisions. We work across all media, technology and entertainment sectors and our teams of experts have extensive experience, partnering with our clients to gain a better understanding of this challenging industry. We have particular expertise in sampling minority audiences that are usually difficult to reach, such as senior business people, high-income consumers, ethnic minorities, other groups that are socially excluded, slow technology adopters and homes that receive different radio and TV platforms. We are involved in running all the major media audience measurement surveys, including PAMCo, the Outdoor Measurement Survey (Route), the Establishment Survey for the TV Measurement Panel (BARB) and Europe's largest and most complex survey – the Radio Audience Measurement Survey (RAJAR). In addition, media owners, ad agencies and advertisers use our regular multi-country syndicated surveys of business leaders and opinion formers for media planning. The Business Elite Surveys have been running since the 1970s and survey the top business executives globally.
